1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the first media cleaning supply and the second media cleaning supply as claimed in claim 1 and 11, must be shown or the feature(s) canceled from the claim(s). This is also applicable to the first high pressure passage and third high pressure passage as claimed in claim 11, lines 16 and 19 respectively. No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, line 2, the phrases "the interior" and "the type" are without proper antecedent basis. This is also applicable to "the interior" in claim 16, lines 1-2. Also in claim 11, line 19, there is claimed a "third high pressure passage", however, a second high pressure has not been positively set forth.

3. Claims 1-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Calhoun et al., Vadakin, Sullivan et al., Wall, Winkin, Billings, Hunter, Jr., Minic, Dickie, Howse et al., Bowers, Byrd et al. and Dent et al., note the heat exchanger cleaners.
